● Who we are

Founded in Chicago. Built in Cairo. Working across MENA and beyond.

SilverKey Technologies builds FinTech, GovTech, and AI/data systems for banks, governments, international organizations, NGOs, and enterprises across Egypt and the wider MENA region. Banque Du Caire, Mastercard, CIB, and the United Nations are among the institutions we have worked with.

We run our own platforms and products, build custom systems around them, and add engineers and advice wherever they are needed.

- 2003** ● Founded in Chicago, Illinois
- 2006** ○ Cairo development centre opens
- 2008** ○ Partnership with CIB begins
- 2009** ○ First GovTech project, with Alexandria Governorate
- 2011** ○ First UN organization partnership, with IOM
- 2016** ○ First AI & machine learning shipped to production
- 2024** ○ Dubai and Doha offices open
- 2025** ○ iScore, the Egyptian Credit Bureau
- 2026** ○ AI for the Supreme Court of Albania, with UNDP
- Today** ● 500+ projects shipped, 100+ people, headquartered in Cairo

We build for regulated, high-scrutiny environments, at national scale.

◀ FinTech

Banking for everyone

Digital wallets, payments, merchant and acceptance apps, bill-payment aggregation, corporate credit cards, BNPL, and digital lending. Our flagship work is Taly, Banque Du Caire's digital payments company.

◀ GovTech

Reimagining public service

Citizen-service portals, permits and licensing, inspection systems, case and workflow management, and training platforms for ministries and governorates.

◀ AI & Data

AI that works

Machine learning in production since 2016, computer vision, LLM-based products, and data engineering and analytics pipelines.

◀ Enterprises & Startups

Speed meets scale

E-commerce platforms, internal business systems, automation, MVPs, and scale-ups.

◀ International orgs & NGOs

Backing the world's changemakers

Grant management, contract management, monitoring and evaluation, and migration and labour systems for UN agencies, GIZ, and foundations.

Ready-made platforms that give you a head start.

Alongside custom builds, we bring platforms of our own. Projects start from working software, shaped around your business.

◀ Finance

Digital Lending

Loan origination (LOS), BNPL, and instalments, from application and checks to approval and repayment.

In use at **Taly**, Banque Du Caire

Mobile Wallets

Wallet experiences that make everyday payments simple.

Delivered for **Mastercard** in Egypt, with Paymob

◀ Commerce & hospitality

Promo Engine

Runs promotions, discounts, and offers across your channels.

In use at **Dabdoob** and **iScore**

StayOps

Property management for short stays: Airbnb and multichannel sync, operations, and housekeeping in one place.

In use at **iGet Hospitality**

◀ Government

Inspection

Plans visits, guides inspectors through checklists, and turns findings into reports and follow-ups.

With the **ILO** and Egypt's Ministries of Manpower and Education

SilverKey Learning Platform

Structured training, digital tools, and knowledge sharing for public-sector employees.

The engine behind **GovInnover** (MCIT with GIZ Egypt)

● AI products

Talentino

Recruitment SaaS for screening, interviews, and candidate matching. Serving businesses in Egypt, KSA, and Qatar.

Tendrix

Helps buyers assess and evaluate bids thoroughly, and helps suppliers build their proposals.

OOH Vision

Computer vision that monitors billboards and reports on campaigns. In use in Egypt, KSA, the UAE, and Lebanon.

Mimir AI

EARLY STAGE • INTERNAL R&D

AI trade assistant for exporters, answering cross-border trade questions from a curated library of trade documents.

Rawy

AI-personalized daily audio app, built on NLP and recommendation technology.

End to end, from strategy and design to hosting, training, and support.

◀ Tech Solutions

End-to-end design and delivery of custom software.

◀ Web & Mobile Development

Web platforms, iOS and Android, and cross-platform apps.

◀ Tech Due Diligence & Consultancy

Technical assessment of startups and platforms for investors and venture firms.

◀ AI / ML

Models, LLM applications, computer vision, recommendation, and prediction.

◀ Team Augmentation & Outsourcing

Dedicated engineers and squads working inside your team.

◀ Data Engineering

Pipelines, warehousing, and analytics.

Three ways to work with us

Build

We design and deliver complete systems, end to end.

Augment

Our engineers and squads join your team.

Advise

Due diligence and consultancy for investors and leadership teams.

Their ability to quickly evaluate the technical foundations of startups has significantly enhanced our decision-making process.

Hamed Mahmoud, Principal, Access Bridge Ventures

Case in focus

Taly

Digital payments company of Banque Du Caire. A partnership from the very beginning.

What we built

Acceptance and merchant apps

Bill-payment aggregation

Corporate credit cards

Qahera Cash

BNPL and digital lending

Recognized by Taly for its pivotal role in building **Egypt's first comprehensive digital payments ecosystem.**

Also in finance and government

CIB

Online Recruitment & Assessment

An organization-wide hiring and assessment platform, built and maintained by SilverKey.

ILO & Ministry of Manpower

Labour and OSH Inspection Systems

National inspection systems with national-level training. Recognized by the ILO and the Minister of Manpower.

Ministry of Education, with GIZ

Quality Management System

Quality monitoring and evaluation across Egypt's technical education schools, improving school ratings.

MCIT

Learning Management System

Capacity-building programmes delivered across government entities.

350+

Alexandria Governorate

Digital Permits & Licensing

Permit and licence types in one digital service, with faster processing and more transparency.

10.2M

Cairo Governorate

Governorate Portal

Online services and information for a city of 10.2 million people.

4 million

registered users on **Dabdoob**, the GCC e-commerce platform running on a complete technology solution built by SilverKey.

For changemakers

GIZ • Contract Management Information System

NGO profiles, grant cycles, and inspection workflows. Two major GIZ projects over five years.

IOM • Migration management

Digital solutions for the International Organization for Migration, a partner since 2011.

Sawiris Foundation for Social Development

A platform for the foundation's operations.

UNESCO • Historic Cairo

Website for the Urban Regeneration Project for Historic Cairo.

USAID • Alexandria Governorate

Digital permits and licensing for Alexandria, delivered with USAID.

For enterprises and consumers

Procter & Gamble • Funding automation

Removes manual paperwork from funding approvals.

Qualcomm • Elite System

Sales-performance tracking.

Talaat Moustafa Group • Madinaty

Quality assurance for residential units.

Mother Parkers, Canada • Supply-chain consulting

Evaluated supply-chain data flows and the use of ERP and MRP, including demand planning.

Fer2etak • Fantasy football

Egypt's most popular fantasy football game, with 200,000+ active users.

SilverKey has been more than a technology provider. They have been **a true partner in Taly's growth from the very beginning.**

Magdy Hassan, CEO & Managing Director, Taly

"Over the past 5 years, I've worked with them on two major GIZ projects ... they're true partners."

Dina Iskander, Senior Specialist, GIZ

"Effective national-level training ensured timely delivery and seamless adoption."

Marwa Salah-Abdou, National Project Manager, ILO Cairo

Trusted to build for

International organizations

United Nations

Government of Egypt

Enterprise & investment

A network that extends what we deliver.

Partners

Microsoft

SilverKey is a Microsoft distinguished partner.

Odoo

SilverKey is an official Odoo partner. Odoo is an open-source suite of business apps covering ERP, CRM, accounting, inventory, and more.

Sister companies

Arkleap

Oracle Gold Partner implementing and supporting Oracle applications, with a focus on manufacturing, supply chain, and logistics.

Arete Global

SAP transformation partner for governments and enterprises in the Gulf, with programmes in Saudi Arabia and the UAE.

iGet Hospitality

SilverKey's proptech venture: short-stay property management, running on our StayOps platform.

Innolabs

InnoLabs

SilverKey's R&D lab, where our AI and computer-vision products start.

Technology we are bringing to the region

AI-driven endpoint protection with a zero-trust approach. We work with Nucleon on integration and local support for clients in Egypt and the region.

Governance, risk, and compliance in one platform for security teams. We work with EYAKO to bring it to banks and public bodies in the region.

Your reliable tech partner.

- **Since 2003**, with an international origin in Chicago and headquarters in Cairo.
- **500+ projects shipped**, with repeat business from GIZ, ILO, IOM, and Taly.
- **Depth in regulated domains:** FinTech and e-government in Egypt and MENA.
- **End to end:** strategy, design, engineering, hosting, training, and support.
- **Product discipline:** we run Talentino, Tendrix, OOH Vision, Rawy, and Mimir AI.
- **ML in production since 2016**, with offices in Cairo, Dubai, and Doha.

Recognition

Minister of Emigration Affairs	For the ministry's online presence, portals, and mobile apps.
Minister of Manpower	For the digital transformation of Labour and OSH Inspection.
International Labour Organization	Appreciation certificate.
Taly for Digital Payments	For Egypt's first comprehensive digital payments ecosystem.
GIZ	For the Quality Management System for technical education.
